Headteacher: Mr Peter McEntee

9th November 2018

Dear Parents

Re: Seesaw

This year we will begin using an online learning platform called Seesaw. As part of this we will be documenting your child's work through photographs, videos, voice notes and other media. This may be in the form of group work with other children or individually. This is an exciting opportunity to use new technology in an educational format to support and engage learning and will prepare them for similar formats that they will experience in secondary school.

You will be able to access your child's account in order to view their progress once the class teacher has given approval. This is a private Chater domain and no-one from the public will have access to your child's work. You will receive more information regarding how to access Seesaw from your child's class teacher in the coming week.

Yours sincerely

Miss De Lacy
Computing Lead

Please return to your child's class teacher

Child's name Class

*I give permission for my child's photograph to be uploaded on Seesaw

Signed (parent) Date

*I do not give permission for my child's photograph to be uploaded on Seesaw
